

Procedimento de acesso à VPN da AEB

INSTALAÇÃO DO FORCEPOINT

1. O software Forcepoint deve ser instalado acessando a nuvem através do link – <https://nuvem.aeb.gov.br/s/feE4EjzN2qL5mPj> e escolher uma das opções, de acordo com o sistema operacional do computador particular, realizando o download do software.

Os aplicativos encontram-se disponíveis para os sistemas Windows, Linux e Mac OS.

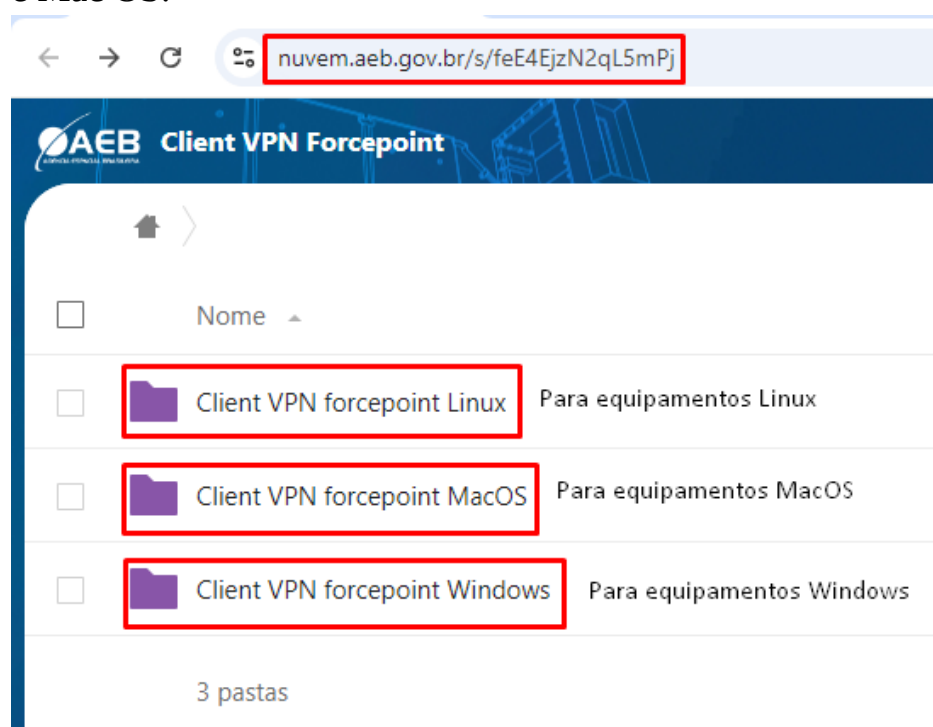

Figura 1

2. Ao executar o software baixado, clique no botão “Next”, conforme a figura 2:

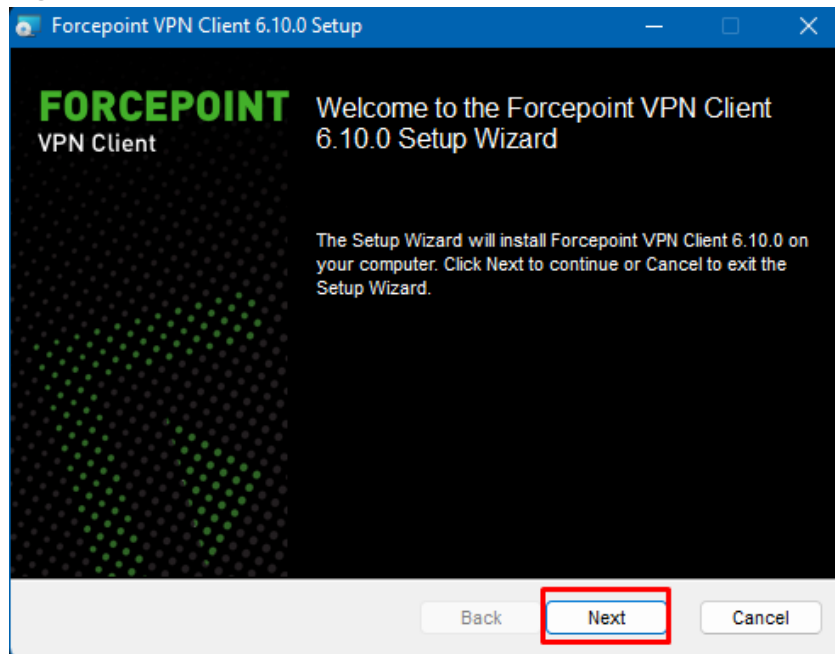

Figura 2

3. Marcar a caixa, conforme o item 1 e clicar em “Next” (item 2):

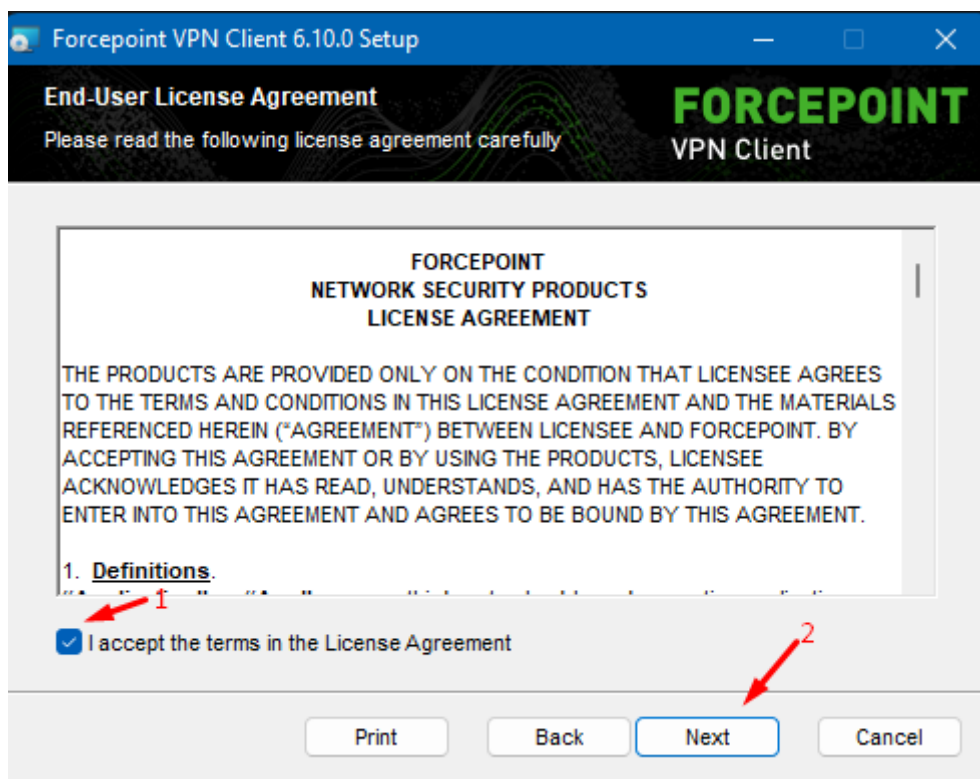

Figura 3

4. Clique em “Install”:

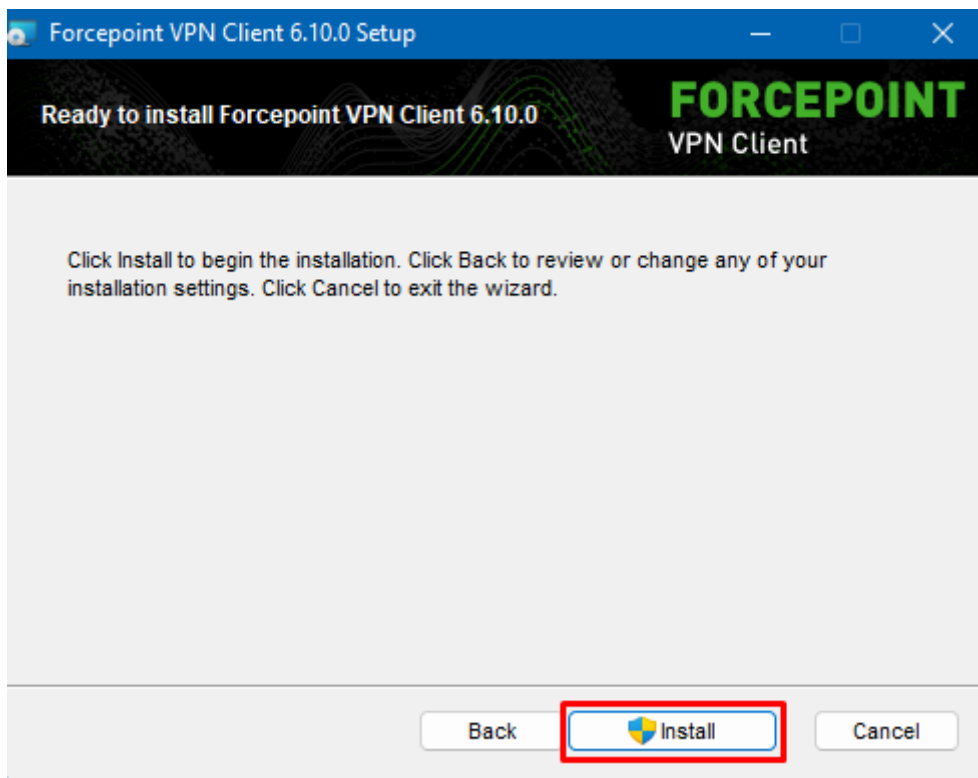

Figura 4

5. Aguardar o processo de instalação:

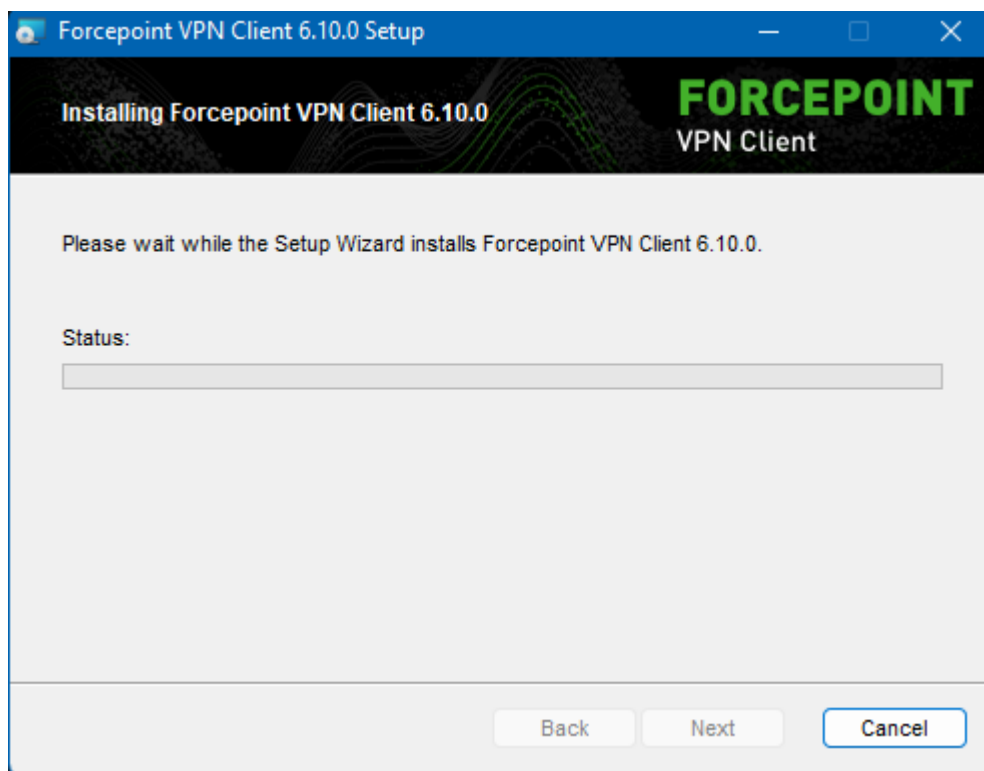

Figura 5

6. Clique em “Finish”:

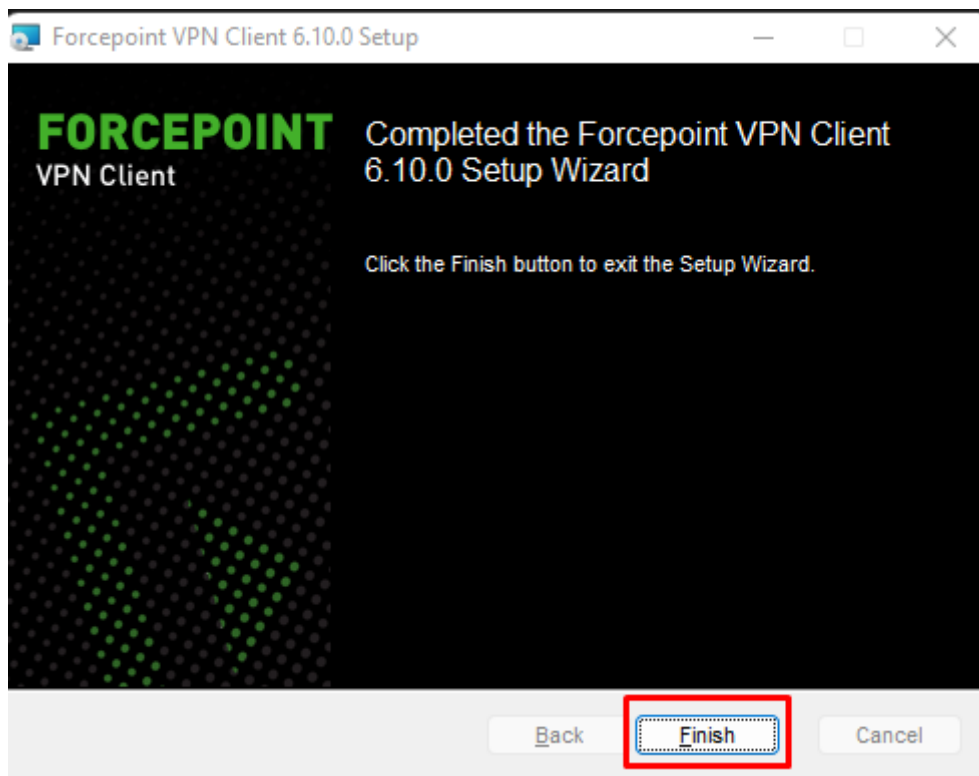

Figura 6

CONFIGURAÇÃO DA VPN

1. Execute o software Forcepoint VPN Client:

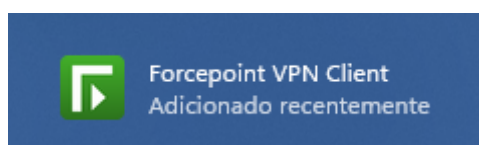

Figura 7

2. Clique em “Connect to New Gateway”:

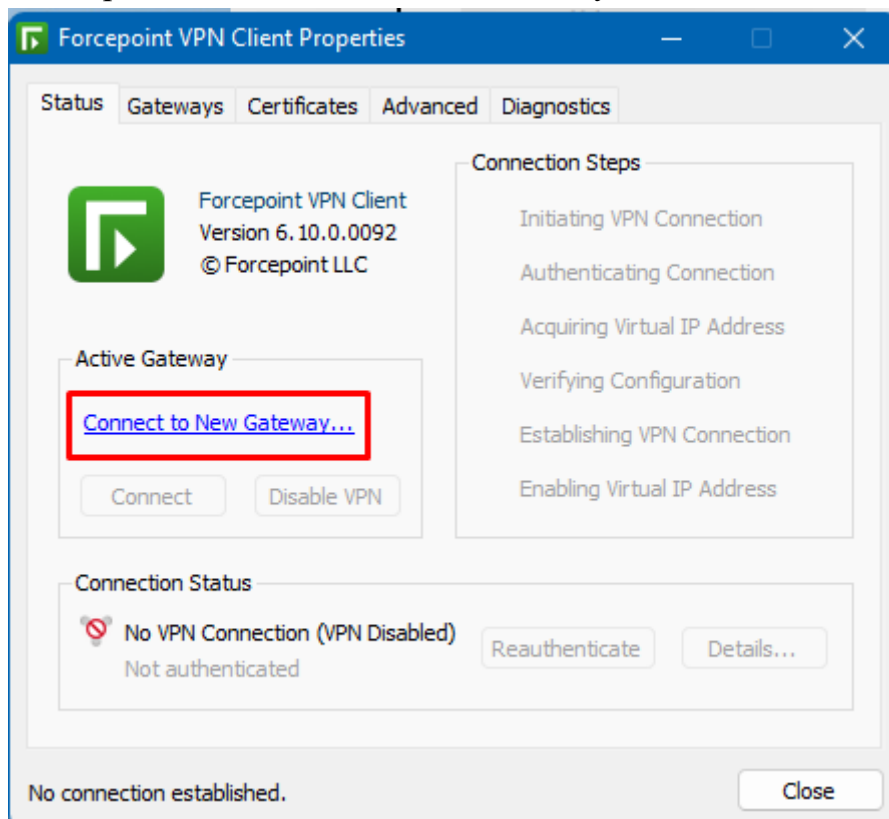

Figura 8

3. Selecione o campo Host Name e digite **200.130.146.1** e clique em “OK”:

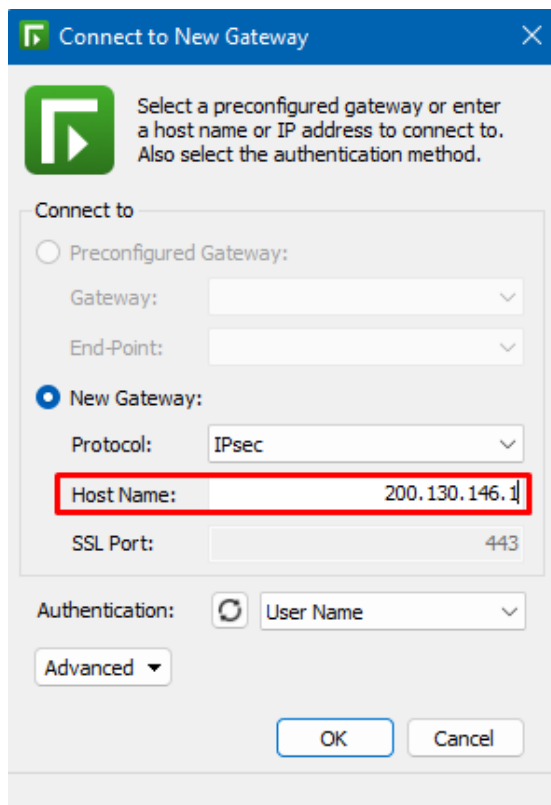

Figura 9

4. Informe as credenciais de acesso à rede corporativa da AEB:

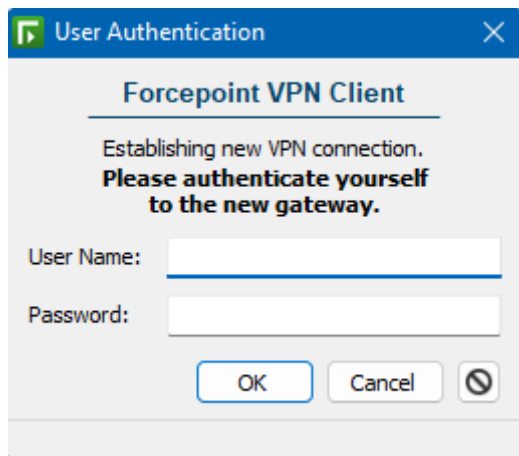

Figura 10

5. Ao terminar o trabalho, desconecte-se:

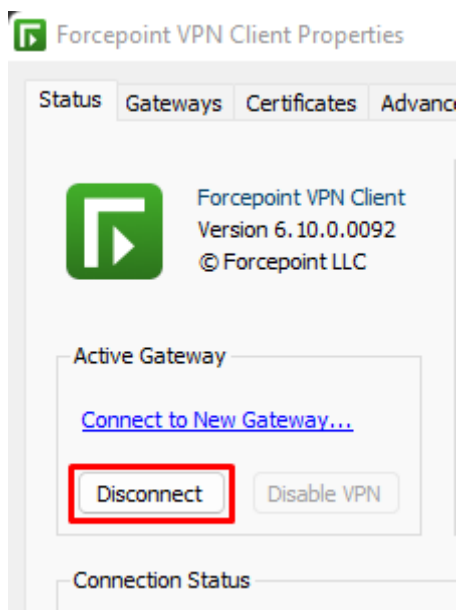

Figura 11

6. Caso queira entrar novamente, basta clicar em “Connect”:
